

DOGWOOD

LONDON

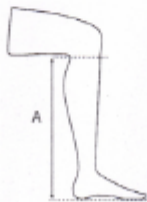

MEASURING INSTRUCTIONS FOR A PERFECT FIT

(Gaiters and half-chaps)

Height Measurement

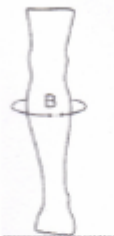

Place your bare foot on the ground and bend your leg so your knee joint forms a right angle (as per a seated position).

Now measure from the floor to the underside of the upper leg (A)

Calf measurement

Wearing breeches or jodhpurs measure around the widest part of your calf (B)

You now have your height and calf measurements which can be entered into your shopping cart when you purchase your chaps or gaiters.

NB. Configuration is Calf/Height for Tredstep and Height/Calf for Sergio Grasso

Gaiter and half-chap measurement chart (inches)

		Height measurements (inches)					
Calf width (inches)		14	15	16	17	18	19
	12	12/14	12/15	12/16	12/17		
	13	13/14	13/15	13/16	13/17	13/18	
	14	14/14	14/15	14/16	14/17	14/18	14/19
	15	15/14	15/15	15/16	15/17	15/18	15/19
	16		16/15	16/16	16/17	16/18	16/19
	17		17/15	17/16	17/17	17/18	17/19
